

Fisheries Observers

IAP World Services
3209 Frederic Street
Pascagoula, MS 39567

Responsibilities: IAP World Services has an excellent opportunity for Fisheries Observers. The successful candidates will be collecting data for the National Marine Fisheries Service (NMFS) aboard offshore commercial fishing vessels for the Shrimp and Reef Fish Observer Programs located at the Galveston, TX Lab. Trips will vary in length from 1 to 45 days. Trips originate out of the Gulf of Mexico and the southeastern US. Individuals should be personable with excellent communication and conflict resolution skills.

Qualifications: Qualified individuals must have at least a BS degree (or near completion), boat experience and a working knowledge of southeastern offshore fishery species is desired. Requires ability to operate Government-owned or personally owned vehicles and sampling equipment. It is desirable that the candidate be located along the southeastern coast of the US.

Candidates must be a natural U.S. Citizen or a non-U.S. Citizen with at least 5 years of continuous residency in the U.S. Ideal candidates meet these minimum requirements and are flexible and easy to get along with.

Salary: Competitive salary with other observer opportunities.

Closing Date: Until Filled
